INDEX OF AUTHORS

APLIN, J. D. 199

BANYARD, M. R. C. 255
BEGG, D. A. 35
BENNETT, A. 53
BRAAT, P. 303
BUTTERWORTH, B. H. 189

CÁNOVAS, J. L. 97
CAPCO, D. G. 17
CUADRADO, A. 97
CHAMBERS, T. J. 155
CHANDLER, C. 53
COULSON, G. E. 145

DE BARSY, T. 67
DELTOUR, R. 67
DERKSEN, J. 303
DICKINSON, H. G. 321
DUBOWITZ, V. 225

EICHENLAUB-RITTER, U. 337
ELLIOTT, G. C. 115
EMONS, A. M. C. 303

FAIT, C. 53
FANG, D. 85
FODEN, L. J. 199
FUJISHIMA, M. 179
FUJITA, M. 179
FULLER, K. 155

GLEESON, P. A. 283
GOWING, L. R. 255

HEAD, L. P. 105
HERTH, W. 247
HOOPER, M. L. 85
HUGHES, R. C. 283
HUNTER, G. J. 135

INOUYE, K. 235

JOHNSON, R. T. 115
JUNKER, J. L. 213

KOCH, G. L. E. 115
KRAMER, R. H. 1

LANE, N. J. 269
LEESON, E. A. 145
LO, C. W. 85
LOKE, Y. W. 189
LUTTY, G. A. 53

MEEKES, H. 303
MELLO, R. J. 53
MORRIS, G. E. 105
MORRIS, G. J. 145

NAVARETTE, M. H. 97
NGUYEN THI MAN 105

PATZ, A. 53
PENMAN, S. 17
PETERS, T. J. 167

RAINBOW, A. J. 115
REISS, H.-D. 247
REITER, T. 17

SHARP, G. 167
SLUDER, G. 35
SMITH, G. P. 167
SQUIRES, S. 115
SWALES, L. S. 269

TELLAM, R. L. 255
TRAAS, J. A. 303
TURNOCK, G. 135

WILSON, J. L. 213
WITKOWSKI, J. A. 225

ZUBERI, M. I. 321

INDEX OF SUBJECTS

Actin
synthesis in tumorigenic and non-tumorigenic human hybrid cells: GOWING, TELLAM & BANYARD 255
Adhesion
defective, to extracellular matrix, leads to altered social behaviour of fibroblasts: APLIN & FODIN 199
Alkaline phosphatase
-containing granules (phosphasomes) in neutrophils: SMITH, SHARPE & PETERS 167
Anisomycin
effect on cell proliferation in higher plants: CUADRADO, NAVAROTTE & CÁNOVAS 97
Antiangiogenic factor
in regulation of cell growth by vitreous humour: LUTTY, MELLO, CHANDLER, FAIT, BENNETT & PATZ 53

Bone mineral
exposure by osteoblasts induces osteoclastic resorption: CHAMBERS & FULLER 155
Bone resorption
induced by osteoblasts: CHAMBERS & FULLER 155
Brassica oleracea
pollen–stigma interaction: ZUBERI & DICKINSON 321

Calcium channels
nifedine-sensitive, in polar growth of lily pollen tubes: REISS & HERTH 247
Calcium gradient
in polar growth of lily pollen tubes: REISS & HERTH 247
Cell culture
divergent expression of laminin and fibronectin: JUNKER & WILSON 213
Cell differentiation
and intracellular pH in *Dictyostelium*: INOUYE 235
Cell motility
in Duchenne muscular distrophy: WITKOWSKI & DUBOWITZ 225
Cell polarity
maintenance, involvement of interaction between cell surface and extracellular matrix: KRAMER 1
Cell proliferation
in higher plants, effect of partial protein synthesis: CUADRADO, NAVARETTE & CÁNOVAS 97
Cell-specific inhibition
in regulation of cell growth by vitreous humour: LUTTY, MELLO, CHANDLER, FAIT, BENNETT & PATZ 53
Cell surface defect
in cell motility study of Duchenne muscular distrophy: WITKOWSKI & DUBOWITZ 225
Centriole
in experimental analysis of reproduction of spindle poles: SLUDER & BEGG 35
Centrosome
in experimental analysis of spindle poles: SLUDER & BEGG 35
Chemical carcinogenesis
expression of laminin and fibronectin: JUNKER & WILSON 213
Chlamydomonas reinhardii
mitochondria, shape changes after osmotic stress: MORRIS, COULSON & LEESON 145
Ciliate
Nyctotherus, function and distribution of spindle microtubules: EICHENLAUB-RITTER 337
Cytoskeleton
in non-tumorigenic and transformed liver epithelial cells: JUNKER & WILSON 213
protein synthesis, shape-dependent regulation: REITER, PENMAN & CAPCO 17
Cytotrophoblast
from first trimester human chorionic villi, immunocytochemical identification: BUTTERWORTH & LOKE 189

Detergent fractionation
in study of shape-dependent regulation of cytoskeletal protein synthesis: REITER, PENMAN & CAPCO 17
Dictyostelium discoideum
intracellular pH and differentiation: INOUYE 235
DNase
in actin synthesis in human hybrid cells: GOWING, TELLAM & BANYARD 255
Duchenne muscular distrophy
cell surface abnormalities: WITKOWSKI & DUBOWITZ 225
Dye coupling
in study of gap-junctional communication in a teratocarcinoma cell line: LO, FANG & HOOPER 85

Embryonal carcinoma
gap-junctional communication: LO, FANG & HOOPER 53
Endothelial cells
apical surface interacts with extracellular matrix: KRAMER 1
Excision repair
in xeroderma pigmentosum–HeLa hybrids: JOHNSON, SQUIRES, ELLIOTT, KOCH & RAINBOW 115
Extracellular matrix
defective adhesion leads to altered social behaviour of fibroblasts: APLIN & FODIN 199
in non-tumorigenic and transformed liver epithelial cells: JUNKER & WILSON 213
interaction with apical surface of vascular endothelial cells: KRAMER 1

Fibroblasts
altered social behaviour after defective adhesion to extracelluar matrix: APLIN & FODIN 199

Gap junction
communication in a teratocarcinoma cell line: LO, FANG & HOOPER 85
Germination
early, radicle cells, nucleolar activity and vacuolation: DELTOUR & DE BARSY 67

Holospora
infection and maintenance of symbiosis with *Paramecium*: FUJISHIMA & FUJITA 179
Human cell hybrids
actin synthesis in: GOWING, TELLAM & BANYARD 255
Hydration
of pollen grains in pollen–stigma interaction in *Brassica*: ZUBERI & DICKINSON 321

Immunocytochemistry
of cytotrophoblast from human chorionic villi: BUTTERWOTH & LOKE 189
Immunofluorescence
microscopy in study of nucleolar proteins in differentiating muscle cells: MORRIS, NGUYEN THI MAN & HEAD 105
Insect CNS
structure and assembly of pleated septate junction: SWALES & LANE 269
Intracellular pH
measurement and relevance to differentiation in *Dictyostelium*: INOUYE 235

Ionic coupling
in study of gap-junctional communication in a teratocarcinoma cell line: LO, FANG & HOOPER 85
Isolated cells
from first trimester human chorionic villi: BUTTERWORTH & LOKE 189

Junctional assembly
in insect CNS: SWALES & LANE 269

Lectins
binding and uptake by BHK cells: GLEESON & HUGHES 283
Liver epithelium
expression of laminin and fibronectin in non-tumorigenic and transformed cells: JUNKER & WILSON 213

Microfibrils
in tips of root hairs: TRAAS, BRAAT, EMONS, MEEKES & DERKSEN 303
Microtubules
function and distribution in spindle in mitosis in *Nyctotherus*: EICHENLAUB-RITTER 337
in root hairs: TRAAS, BRAAT, EMONS, MEEKES & DERKSEN 303
Mitochondria
of *Chlamydomonas*, shape changes after osmotic stress: MORRIS, COULSON & LEESON 145
Mitosis
experimental analysis of reproduction of spindle poles: SLUDER & BEGG 35
of *Nyctotherus*, number of protofilaments in spindle microtubules: EICHENLAUB-RITTER 337
Mitotic cycle
in relation to *in vivo* transcription of rRNA in *Physarum*: HUNTER & TURNOCK 135
Modeccin
binding and uptake by BHK cells: GLEESON & HUGHES 283
Monoclonal antibodies
against nucleolar protein from differentiating chick muscle cells: MORRIS, NGUYEN THI MAN & HEAD 105
Muscle differentiation
studied using monoclonal antibodies to nucleolar protein: MORRIS, NGUYEN THI MAN & HEAD 105

Neurogenesis
in embryonic cockroach: SWALES & LANE 269

Neutrophils
isolation and characterization of phosphasomes: SMITH, SHARP & PETERS 167
Nifedipine
-sensitive Ca channels in polar growth of lily pollen tubes: REISS & HERTH 247
Nocodazole
in study of spindle microtubules of *Nyctotherus*: EICHENLAUB-RITTER 337
Nucleolar activation
in embryo radicle cells in early germination: DELTOUR & DE BARSY 67
Nucleolar protein
from differentiating muscle cells, monoclonal antibodies to: MORRIS, NGUYEN THI MAN & HEAD 105
Nucleolar vacuolation
in embryo radicle cells in early germination: DELTOUR & DE BARSY 67

Osmotic stress
effect on *Chlamydomonas* mitochondria: MORRIS, COULSON & LEESON 145
Osteoblasts
induce osteoclast resorption by exposing bone surface: CHAMBERS & FULLER 155
Osteoclast
resorption, initiated by bone cells by exposing bone to contact osteoclasts: CHAMBERS & FULLER 155

Paramecium
infection by *Holospora* and maintenance of symbiosis: FUJISHIMA & FUJITA 179
Parathyroid hormone
increased bone resorption after incubation with calvarial cells: CHAMBERS & FULLER 155
Phosphasomes
from neutrophils, isolation and characterization of: SMITH, SHARPE & PETERS 167
Plant cells
effect of partial protein synthesis on proliferation: CUADRADO, NAVARETTE & CÁNOVAS 97
Polarity
in growth of lily pollen tubes: REISS & HERTH 247
Polar organization
experimental analysis of spindle poles: SLUDER & BEGG 35
Pollen
interaction with stigma in *Brassica*: ZUBERI & DICKINSON 321
Pollen tubes
of lily, Ca channels and polar growth: REISS & HERTH 247
Protein synthesis
in anchorage-dependent and independent cells, shape-dependent regulation: REITER, PENMAN & CAPCO 17
Protofilaments
13, 14 or 15 in microtubules of *Nyctotherus* spindle in mitosis: EICHENLAUB-RITTER 337
Physarum polycephalum
mitotic cycle and *in vivo* rRNA transcription in *Physarum*: HUNTER & TURNOCK 135

Rhodamine 123
staining of mitochondria after osmotic stress: MORRIS, COULSON & LEESON 145
Ribosomal RNA
in vivo transcription and mitotic cycle in *Physarum*: HUNTER & TURNOCK 135
Ribosomes
in differentiating chick muscle cells: MORRIS, NGUYEN THI MAN & HEAD 105
Ricin
binding and uptake by BHK cells: GLEESON & HUGHES 283
Root hairs
microtubules in: TRAAS, BRAAT, EMONS, MEEKES & DERKSEN 303

Self-incompatibility
in pollen–stigma interaction in *Brassica*: ZUBERI & DICKINSON 321
Somatic cell hybrids
with low and high u.v. sensitivity associated with normal and low DNA repair ability: JOHNSON, SQUIRES, ELLIOTT, KOCH & RAINBOW 115
Spindle elongation
in mitosis of *Nyctotherus*, function and distribution of microtubules: EICHENLAUB-RITTER 337
Spindle poles
experimental analysis of reproduction: SLUDER & BEGG 35
Stigma
interaction with pollen in *Brassica*: ZUBERI & DICKINSON 321
Symbiosis
between *Holospora* and *Paramecium*: FUJISHIMA & FUJITA 179

Transcription
in vivo of rRNA and mitotic cycle in *Physarum*: HUNTER & TURNOCK 135

Tumorigenicity
in human hybrid cells, actin synthesis: GOWING, TELLAM & BANYARD 255

Vitreous humour
regulation of cell growth: LUTTY, MELLO, CHANDLER, FAIT, BENNETT & PATZ 53

Xeroderma pigmentation
and DNA excision repair in somatic cell hybrids: JOHNSON, SQUIRES, ELLIOTT, KOCH & RAINBOW 115
